### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art, either singularly or in combination. According to the invention, a method detects a plurality of intrusion attacks to a packet transmitted on a network by using a multi-stage intrusion detection system. The method receives the packet, and determines at a first stage of the intrusion detection system whether a first condition assigned to the first stage is satisfied for the packet. The intrusion attacks are associated with a plurality of conditions determines at a second stage of the intrusion detection system whether a second condition assigned to the second stage is satisfied for the packet. Next, the method determines that the packet corresponds to an intrusion attack when it is determined that the first condition and the second condition are satisfied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
